A Very Special Remnant Day.

MORROW will be a very special and exceptionally interesting Remnant Day. We are preparing for our Annual Inventory, and, of course, this discloses assortments that are only slightly incomplete or having some other very small fault that renders them unfit for regular stock.

These and many other things have been assembled in their various departments, and arranged and priced so as to facilitate

inspection and selection. The savings to be effected are very important, and in most instances the items are perfect. Practically every department is a contributor, and the following represent only a portion of the many things that have been reduced for final clearance.
